

TRANSFER BOARD (SLAVE BOARD)

SKU: FGS-0011

48x40

ENGINEERED FOR STRENGTH.
DESIGNED FOR CLEANLINESS.
BUILT FOR AUTOMATION.

BUILT FOR PERFORMANCE IN DEMANDING ENVIRONMENTS

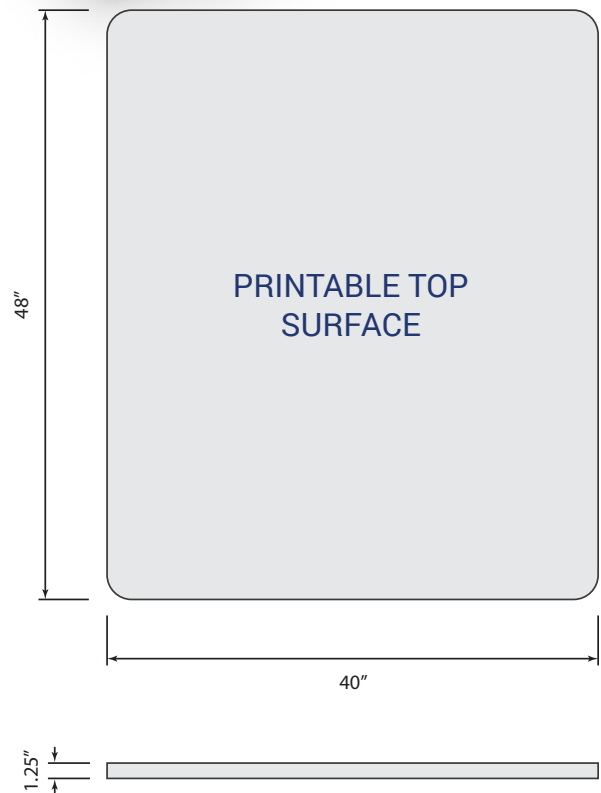

The **Plastic Pallet Slave Board** from **Artistic Composite Pallets** is the ideal solution for automated systems and clean environments requiring dimensional consistency, durability, and sanitation. Designed to perform under pressure, this transfer board is commonly used across **pharmaceutical, food & beverage, construction, and warehouse automation** sectors.

KEY FEATURES & OPTIONS

- Compression molded with 100% recycled plastic
- Optional internal pultruded fiberglass or carbon steel structural frame for added strength
- All materials are FDA-approved
- Reversible configuration available
- Hand holes can be added for manual handling
- Rounded edges for easy de-stacking
- Custom sizes offered through modular design capabilities
- Optional side barcode labeling or RFID for automated identification and tracking.

PRODUCT SPECIFICATIONS

PRODUCT	DESCRIPTION	DIMENSIONS			WEIGHT	LOAD CAPACITY		MATERIAL CONSTRUCTION
		L	W	H		STATIC	RACKABLE	
PSB 40x48	Pallet System Board (Transfer/Slave Board)	48"	40"	1.25"	28 lbs.	12,000 lbs.	2,000 lbs	Twin-sheet thermoformed recycled plastic (PE) shell with optional internal pultruded fiberglass structural frame or carbon steel tube reinforcement.

WHY CHOOSE ARTISTIC COMPOSITE PALLETS?

SUPERIOR STRENGTH & DURABILITY

Engineered to meet GMA standards while exceeding ISO and ASTM benchmarks. With minimal deflection under load, it's ideal for automated material handling.

WASHDOWN-READY & CONTAMINANT-FREE

Perfect for industries requiring high sanitation. No need for fumigation or heat treatment like wood pallets. Resists bacteria, mold, and pests.

SUSTAINABLE AND RECYCLABLE

Made from FDA-approved, recyclable materials that support a circular supply chain and reduce landfill use.

AUTOMATED SYSTEM COMPATIBLE

Seamless integration with pallet conveyors, dispensers, robotic palletizers, AS/RS, and pallet shuttle systems.

SAFETY FIRST

Splinter- and nail-free to protect your workers and your products.

LONG-TERM COST SAVINGS

Up to 50+ trips in open-loop use with a lifespan that matches the life of your automation equipment in closed-loop systems.

IDEAL APPLICATIONS

GENERAL
WAREHOUSING

FOOD & BEVERAGE
PRODUCTION

PHARMACEUTICAL
