

48" x 40" x 5.56" Plastic Block Pallet, 2800 lbs. Rackable Load, Solid Top

Artistic Composite Pallets is an excellent all-around choice for standard pallet use as well as closed loop AS/RS applications for the following reasons:

- Tight dimensional tolerances which is great for automated systems
- Suitable for Pharmaceutical, Food and Beverage, Clean Rooms, Heavy Duty.
- No organic materials
- Option to place a logo or image on the top surface
- Five (5) or three (3) runner available
- RFID and IoT capable for tracking
- Attractive aesthetics which compliments the AS/RS automation
- When handled properly, the pallets should match the useful lifetime of the AS/RS
- Four-way entry
- Extremely durable - built to handle day to day industrial operations
- Multi-directional conveyable
- Made from sustainable manufacturing practices and materials
- Recycle program available for end of life

Artistic Composite Pallet Performance:

Long Lasting Heavy Duty Construction

Durable

Customizable

No Need to Fumigate

Under 50 lbs

Meets GMA Standards

Exceeds ISO & ASTM Standards

Sustainable Manufacturing

Rated at 2,800 lb Rackable Load

End of Life Recycling Program

Omnidirectional Conveyable

4-Way Entry

Quick ROI

Artistic Composite Pallet Specifications:

Artistic Composite Pallet: 48" x 40" Pallet Non-Organic	
Rackable Load Capacity	2,800 lbs.
Dynamic Load Capacity (sitting on the forks)	5,000 lbs.
Static Load Capacity (sitting on the floor)	12,000 lbs.
Dimensions	48" x 40" x 5.56" Height
Pallet Weight	<50 lbs.
Materials of Construction:	100% Non-Organic Materials: Plastic: HDPE, HMWPE, Structural Reinforcement (Aluminum, Carbon Steel, Pultruded Fiberglass, and fasteners)
Fork Pocket Entry	Fork Pocket Openings
Clearance Height	3.62"
48" Side	14.63" wide
40" Side	11.75" wide
